Laurel

I've acknowledged this but could you respond to his request for a meeting etc and copy me in please.

Thanks

Heather

Subject: the terrace road scheme

Dear Heather Millar,

I have read with interest the plans for the terrace. There were mutings of having parking only on one side the east being less disruptive as it has no side roads and would provide more spaces.

Your proposal would reduce the spaces by a huge amount and push the cars into the side roads we personally could not park outside our house that would bring big problems of carrying things back and forth to the other end of the street,

We also have a huge amount of cars parked here from all the high street, our staff included, where do you suggest they park?

The holiday business in this town is the life blood and restricting parking is only going to push them away. The high street is struggling with the economy already and we should be looking to find ways to accommodate them.

We as residents understand the problems the summer is horrendous, you can't park here and blink and your space is gone, has there been any thought to permits or businesses being able to have permits for the car parks on the front.

As vice chair of the Aldeburgh business Association this has been a hot topic for a long time and wondered if we could arrange a meeting to air our views and ideas as to how the town could function better as to parking.

The town functions on good will this includes the traffic wardens who will allow essential loading and unloading, we do not wish for a hard line but to be able to co-operate and facilitate as solution

There is a consensus for the other proposals make a lot of sense especially the Alde lane idea. would it be better to make it one way and keep some parking for the residents without drive ways ?

I look forward to your thoughts and hope we can all end up with a satisfactory result

Yours

Sincerely

Mr Robert Mabey
