**Re: Proposals for Aldeburgh Roads (Prohibition of Waiting)**

Dear Mr. Earl,

Thank you for your new proposals, dated 17 April 2012, as put through our door.

You have come up with a good compromise between providing parking for the High Street traders and allowing access to the Terrace for larger vehicles. But you haven't done anything to protect genuine local residents.

We have just got through the bad times of the Easter holidays, and the pressure of the summer is upon us. Long months of agony face those of us who have no garages or protected parking. It so happens I am facing a major heart operation in a fortnight's time, and I can tell you that the stress caused by our parking problems here is not imaginary. Take your car out for five minutes between 9 am and 6 pm, and the space is instantly taken by a newcomer. We need white lines or residents' parking. If Crag Path can have reserved places, why cannot we in the Terrace?

Surely you can come up with something to protect us against what is going to be a horrible summer. That is our concern. Please do something to help.

Yours sincerely,

(Canon) John Giles, Full-time resident in The Terrace for over 13 years.
