26th March 2012

Dear Sir,

I am writing to object to the parking options put forward for Broad Meadow (letter ref 500/430A/AJS). I live at number 6 Broad Meadow and have only one off road parking space. The garage unfortunately is too small to accommodate a car as you are unable to open the car doors to get out.

My brother lives with me and works nights from 16.00hrs – 01.00hrs so any daytime restrictions makes it impossible for him to park his car. I am retired on ill health and am in most days accordingly my car is park on the drive. I have friends and family come to the house during these restricted times several times in a week, due to ill health I am not able to get out as much as I would like. These visits keep me from being isolated and stuck at home alone, as my brother sleeps most of the day, as working on nights.

I have said previously, that the students are not really causing any problems. Most of the park outside my house as it is the longest uninterrupted curb. I do not object to this and cannot understand why other residents have a problem. The people that are complaining most about envisaged parking problems all have large drives to park at least 3 cars and are out at work until late afternoon (17.00 -18.00hrs).

If any of the restriction have to be implemented then I would support option 4 as the most flexible, I cannot see anyone would mind parking on one side of the public highway. Broad Meadow is not a private road we cannot expect to enforce no parking on both sides of the road when it will impact so negatively on resident's lives.

If parking restriction are to be implemented on both sides of the road then I would hope that the council will drop the curb at the front of my property so that we are able to park both our car during restricted hours.

I look forward to your response.

Yours sincerely,

Sarah Driver
