- ICS Senior Programme Board
- New underpinning Delivery Group
- Existing Suffolk mechanisms – dovetailing as necessary

Better Care for Great Yarmouth and Waveney: Workstreams April 2014

Scheme	Outcome				Key activity	Local/ central/county	Timescale	Lead
	BCF Metrics	ICS Contribution	System Configuration	Savings				
Supporting independence by provision of community based support interventions	To deliver a range of health and social care community based support interventions closer to people's homes, 7 days per week that maintain / regains independence, including the use of Personal Budgets to help prevent people's needs escalating.							
Integrated community health and social care teams including out of hospital teams and integrated community palliative care	This continues work already underway in part of the CCG area and will include workforce development.
