<p>Notes:</p> <p>1. The figures shown for ACS and Passenger Transport represent risk assessments by Supplier rather than Contract. This is because a number of suppliers in these departments have multiple contracts for similar services which will be managed together.</p> <p>2. Since compiling these figures, a restructure took place involving elements of the Directorate of Economy, Skills and Environment which have moved to Resource Management and Children and Young People respectively. The table reflects the original organisational structure as it stood at the time the exercise was completed.</p>
